SUMMARY

Experienced in developing and maintaining web applications using React, GraphQL, and Node.js. Proven track record in enhancing user experience and building responsive interfaces. **Eager to contribute to Sigma Computing's mission by leveraging my technical expertise and innovative solutions.**

EXPERIENCE

*Anecure, **Senior React/UX Developer***

Nov 2019 - Sep 2025

- Responsible for development of web version of Swell mobile app, corporate site, and developers portal, ensuring parity with core app features and major browser support.
- Stack: React, ReactQuery, GQL, Node, AWS Lambda
- Built audio visualizations and concept designs, enhancing user experience and engagement.
- Built audio listening and recording UX.

*Infosys Equinox, **Associate Technical Director***

Oct 2016 - Nov 2019

- Led construction of large scale web projects, integrating client systems with a propriety ecom framework and orchestration stack (Now called Infosys Equinox).
- Guided clients and development team through BA, QA and launch, ensuring high-quality and timely delivery.
- Rapidly prototyped products for the architecture process, facilitating implementation into the stack and optimizing project timelines.

*Macy's, **Interactive Development Manager***

Mar 2012 - Oct 2016

- Led a team of 4-6 engineers to build engaging websites for Macy's internal Digital Agency, improving user experience and engagement.
- Advised on capabilities and UX during the marketing and design cycle, planning the structure and programming of the final product using Node/Express/Heroku/Git.
- Built and maintained middleware for operations management in PHP, MySQL, SVN, enhancing system efficiency and reliability.

*Macys.com, **Senior Interactive Developer***

Oct 2009 - Mar 2012

- Team lead for interactive design and development working in Flash and JS.
- Key UI/UX expert

*Flying Point Media, **Senior Flash Developer***

Oct 2004 - Jul 2009

Interactive designer and developer working in Flash for websites and ads.

*University of the Sunshine Coast, **Adjunct Faculty***

Jan 2001 - Aug 2004

- Taught Flash programming, game design, and web development, enhancing students' technical skills and creativity.
- Co-managed an international web-magazine, improving content quality and coordination across multiple desks.
- Created syllabi for 6 semesters of Flash and web magazine production, standardizing curriculum and ensuring comprehensive coverage of key topics.

*State University of New York Cortland, **Adjunct Faculty***

Sep 1999 - May 2000

- Developed and taught a web-based, student-run publishing platform, enhancing content quality and coordination across multiple international desks.
- Led server management, web page design, and development, ensuring seamless operation and user experience.
- Organized writers and publishing schedules, standardizing processes and improving efficiency.
